## SQUARE RING SIZE CHART

FOR OUR FINE ROUNDED SQUARE RINGS IN 3 WIDTH XS/ SF/ F  
THE WIDE RINGS W AND XW PLEASE CHOOSE ONE SIZE BIGGER!

RINGSIZE AND FINGER CIRCUMFERENCE IN MM

SIZE XS  
INNER MEASUREMENT 14 X 14 MM  
FITS RING SIZE 47 – 50 (CIRCUMFERENCE)  
EQUAL TO US SIZE 4,1 – 4,9

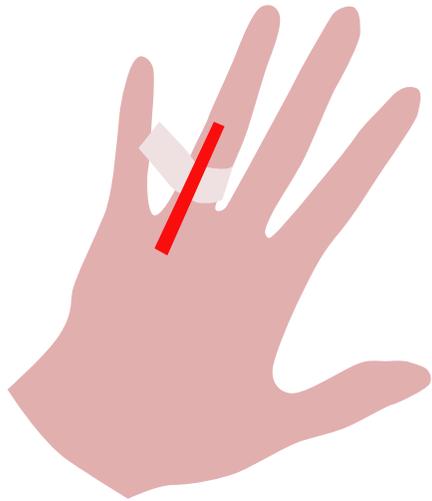

SIZE S  
INNER MEASUREMENT 14 X 14 MM  
FITS RING SIZE 51 – 54 (CIRCUMFERENCE)  
EQUAL TO US SIZE 5,3 – 6,84

SIZE M  
INNER MEASUREMENT 16 X 16 MM  
FITS RING SIZE 55 – 57 (CIRCUMFERENCE)  
EQUAL TO US SIZE 6,8 – 7,6

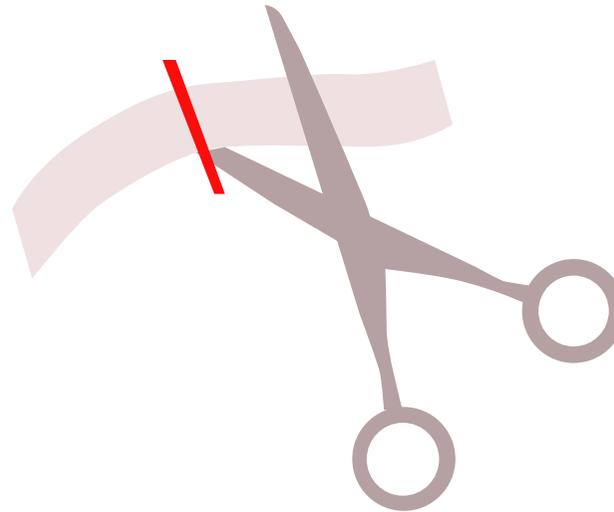

SIZE L  
INNER MEASUREMENT 17,5 x 17,5 MM  
FITS RING SIZE 58 – 60 (CIRCUMFERENCE)  
EQUAL TO US SIZE 8,0 – 9,1

# SABRINA DEHOFF

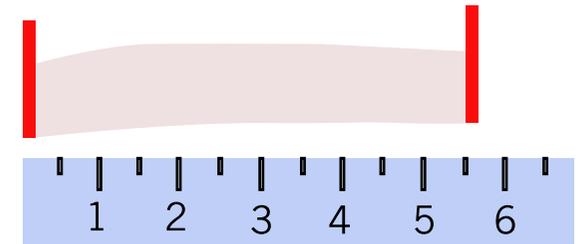

## How do I find out my correct ring size?

Put paper strips  
around finger

Cut paper strip

Measure paper strip

The ring size can easily be determined with a paper strip. Place a paper strip (optimal width is 5 mm) around your finger so that it can be easily slipped over the joint. Mark the place where the paper encloses the finger and cut off at the mark. Place the cut-off strip lengthwise on a ruler, read off the number and the ring size is determined.

For example: 5.8 cm (58 mm) corresponds to ring size 58. If you have measured exactly five centimetres with the paper strip, you have ring size 50. The determined ring size can then be converted into the Sabrina Dehoff ring sizes XS,S, M, L using our ring size chart.
